

ENTERPRISE MANAGEMENT SYSTEM - Overview

Prepared by

VCIDEX SOLUTIONS PVT LTD

Chennai

INTRODUCTION

In current downturn, traditionally managed organisations are in a dire position to redefine the way they do business to keep ahead of competitors. Many organisations often end up running their business with people dependency rather than process dependency. This results in inability for management to force changes during such critical stage.

Vcidex Enterprise Management System can be an effective tool for organisation to automate their operations and thereby helps the management to gain visibility and control over the process which can open up the opportunity to save cost in many ways.

Vcidex Enterprise Management System is an ON premise, easy to implement, flexible, user friendly enterprise automation system. With Vcidex Enterprise Management System, you can automate and streamline all stages of operations starting from HR, Payroll, Sales, Purchase, Inventory, Accounts, Production, Assets, day-to-day management and all other activities.

With Rapid implementation and user friendly support by Vcidex, Organisation can realise higher levels of user adoption, low total cost of ownership and a better positive return on investment.
